

Terms of service for INDUSTRY RECORDING COMPANY

You can pay via Paypal, bank transfer, call in a credit card or Walmart money card.

Services/Rates

We require that you pay in cash, money order or bank certified check before the start of the session. This is a strict policy we adhere to. If you cannot do so, then no media will be presented nor will the session start until balance is paid in full.

Deposit/Requesting Time Slot

You pay up front. Why? We both know why so get your game together before you call me.

Mixes, Daily Rough Mixes, Mastering and Master Tracks

Daily mixes and mastered projects can be provided on a high quality CDR for \$5.00 each. A rough mix can be provided for the day's work, but this takes time and is a "rough mix" at best. These will be emailed to you.

Payment

You, the client, are responsible for all monies due and shall make payment as follows: cash, money order, credit card or bank certified check. No personal checks are accepted, sorry. No media will be turned over to you until full payment is made for that day. An invoice will be furnished when payment is received. Do not assume that if the session goes over the allotted time or extra products/services are required you will not be billed. It is your responsibility to keep track of your session time/services and pay for any extra time incurred.

Album & Song Credits Policy

I reserve the right to request that credit NOT be given.

The Client is the Producer

Unless the client has made prior arrangements with me to act as Producer, thereby providing production input, all decisions and approval of recorded material are the responsibility of the client. It is therefore recognized that the client is the Producer. The client is thus responsible for adequacy, appropriateness of music style, performance, microphone/preamp choices, format and all use of outboard effects, reverbs, equalizers, limiters, instruments, and studio

performers. It is also recognized that it is the responsibility of the client to insure that final mixes are performed to his/her satisfaction. I will only respond to the adjustments and operations of the equipment chosen by the producer. I can produce your project at an additional fee. I am not responsible for the quality of work by independent producer's engineers or artists and does not engage in any negotiations with those third parties.

NOTE: I personally own all projects that are sent to me until the balance of the work is paid in full. This means I can sell your account or offer it to another client. By sending me your work you are agreeing to my conditions. I will keep your project for 1 month without any service fees. After this time a \$75.00 fee will be added for every 30days that the invoice has not been paid in full. Example: You owe \$100.00 remainder on your balance for the work we provided. Every 30days an additional \$15.00 will be added to your invoice. No exceptions. When this amount is paid in full you may have your project/masters. We will store your complete project/session for one month after the project is complete. Long term storage will incur a \$100.00 fee per session per year. Your project will be backed up at three locations to guarantee the work will be same from damage or defects. If you have not purchased a backup plan there will be a \$100.00 fee per session to recover your work.
